

# Network Permit to Work (Horizon Power)

## Aim

This one-day course will provide participants with the skills and knowledge to be authorised as a Recipient in Charge of work permits.

## Recommended For

Individuals who are required to receive work permits as a Recipient in Charge in an electricity supply networks (transmission and distribution) environment.

## Entry Requirements

There are no entry requirements for the course.

*Note: There are requirements before an individual can be authorised as a Recipient in Charge of work permits. Please contact Horizon Power for these authorisation requirements.*

## Details

**Code:** ESSTR0042

**Duration:** 1 day

**Course No:** Maximum 12 participants and minimum 6 participants

***Note:** Minimum participant number only applies to a public course.*

**Fee:** Contact ESS

***Note:** The fee will be based on a minimum training course number of 6. If this number cannot be achieved, the day rate for the training course will apply. This rate can be split between clients enrolled into the training course. This arrangement will be discussed with the client.*

**Payment:** Client will be invoiced as per Energy Skills Solutions invoicing process. Payment as per Energy Skills Solutions terms of payment.

**Dress:** Normal work attire (enclosed footwear required)

## Objectives

On successful completion of this course, participants will be able to:

- Identify the impact of human factors on work permit procedures
- Describe the responsibilities for work permits
- Describe Recipient in Charge responsibilities for work permits
- Describe the application of tags and locks related to work permits
- Describe the application of work permits
- Explain the safety requirements related to work permits

## Content

- The human factor and work permits
- Work permit roles and responsibilities
- Recipient in Charge responsibilities for work permits
- Tags and locks
- Types of work permits
- Application of work permits (standard and variation procedures)
- Safety requirements and work permits

## Delivery

The course is conducted face-to-face in a training room environment.

Learning activities are included in the course to ensure knowledge and skills can be safely applied to workplace situations.

The importance of safety is emphasised throughout the course.

## Assessment

A written assessment is included in the course. Participants will need to successfully complete the assessment to enable them to apply for authorisation as a Recipient in Charge.

## Certification

A Certificate of Completion is issued for the successful completion of the course.
